ENJOY YOUR WALK!

1. Connect one side to the harness leash and the other to the handle of the training leash.

2. Connect both the harness and leash to the dog's chest, front legs, and back legs.

3. Clip the buckles between the sternum strap and the other side.

4. Pull the Freedom No-Pull harness over the dog's head and clip both buckles.

5. Connect one side to the harness leash.

NOTES

- The initial feeling of the harness is due to the Freedom No-Pull feature, which will spread with the use.
- The most time you will spend with the harness is during training.
- This is the double connection method and gives more control with your dog.

DOUBLE CONNECTION HARNESS

EASY AS FREEDOM NO-PULL HARNESS AND LEASH
